CEN Transport and storage tank for fuels and oils

Characteristic	Are	ea of application/Med	Transport/I	Transport/Installation		
		F-1				
E2 Double wall	E12 Hazardous to groundwater	E7 Highly flammable	E10 Heating oil/ Diesel	E4 Filled trans- portable	E8 Outside installation	

 $The \ multi-functional, durable \ transportation \ and \ storage \ tank \ system \ for \ the \ logistics \ of \ the \ 21st \ century \ offers:$

- Modern logistics through save transportation, transit and storage of fuels and oils
- Optimal utilization of space through the cubic form, EUR-pallet dimension and stackability for transport ation and storage
- All around arranged tension sleeves and lifting eyes ensure the maximal security during transportation, loading and stacking

The container sets standard in functionality, usability and security. It is qualified with the certification of an IBC for transporting hazardous goods of the packaging groups II and III and is also qualified with the certification of a storage tank. These components of modern logistics can be used individually or as a tank battery, stationation of the packaging groups II and III and is also qualified with the certification of a storage tank. These components of modern logistics can be used individually or as a tank battery, stationation of the packaging groups II and III and is also qualified with the certification of an IBC for transporting hazardous goods of the packaging groups II and III and is also qualified with the certification of a storage tank.

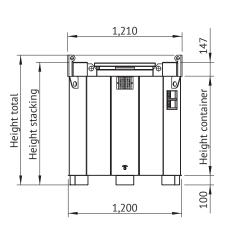

rily or transportably. The durable, double wall structure of steel guarantees a long-life cycle and the integrated vacuum leakage indicator guarantees security. The container is the best for the use in logistics companies, the chemical industry, in the mineral oil trade, mechanical engineering and aggregate construction and in the civil protection or in conflict areas.

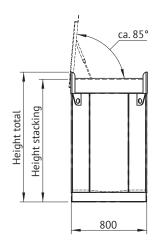

Type/Art no.	Volume		Length W	Width	Height	Height Height	Height We	Weight	Max. permissible	Max. gross
	100 %	95 %	total	total	container	stacking	total	empty*	stacking load	weight
	(l)	(mm)	(mm)	(mm)	(mm)	(mm)	(kg)	(kg)	(kg)
CEN-501	530	500			711	786	1,033	295		1,230
CEN-751	790	750	1,210	810	1,051	1,126	1,373	360	ca. 2,612	1,754
CEN-951	992	950			1,326	1,401	1,648	434		2,184

Please note: Max. density of the filling goods is 1.8 kg/l.

* According to the equipment weights can be vary.

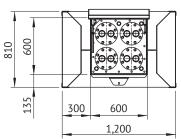

Technical changes reserved!

Container inside wall min. 3 mm

Optional with tank heating

Attention: As an option it can be equipped to transport flammable media with a flash point < 55 °C.

Material	Approval	Documentation	Sheet
Structural steel S 235 JR (1.0038)	IBC: D/BAM 6252/31A Storage tank: Z-38.12-23	1x English	1 of 3

CEN

Transport and storage tank Advantages

Corrosion protection for outside installation

- Inside: unmanufactured, oiled
- Outside: L-A-3 KTS standard coating system, sandblasted, primed and coated in RAL 7032 (pebble grey) alternative RAL colours: RAL 3003 (ruby red), RAL 5007 (brilliant blue), RAL 8001 (ochre brown)

Documentation

- Test certificate
- Overview drawing
- D/BAM and general technical approval
- Datasheets for equipment
- Certificates of WHG and ISO 9001

Advantages

- Tank for Transport, handling, storage and supply of fuels and Quick connection and disconnection for filling
- International approval for ship, rail and road (IBC)
- General construction supervision approval as storage tank
- Extremely durable, high static firmness through double wall
- Minimization of the danger potential by vacuum leakage indicator and the arrangement of the equipment which is protected in the tank body
- Conceived for world-wide application and transportation
- Laid out for temperatures from -5 °C to 50 °C
- Optimal space capacity ratio due to the cubic design
- Saving transportation costs through standardized surface area according to EUR-pallet standard
- Optimized transit times, laid out for all usual loading tech-
- High loading security through integrated tension sleeves

- and extraction of media by dry clutch
- Transport optimized dimensions for bringing in trucks and freight containers
- Quick and easy attachment of the tank body on a truck by lashing straps
- Handling with a crane or forklift
- Possible extension to battery systems
- Constructed also for the use under extreme conditions
- Installation inside buildings, outside and in water protection
- Individual equipments allow adequate and practice-oriented solutions
- Three times stackable (space saving of floor area)

UN 31A/Y/XX.XX/D/BAM 6252-KRAMPITZ/4700/*

UN Made, proved and approved according to the UN packing instructions

31A IBC out of steel for liquid substances

Υ Approved for substances of the packaging groups II and III

XX.XX Month and year of production

D Country in which the approval was granted

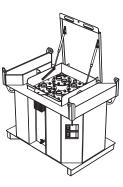

Institution that grants the approval, approval number and manufacturer BAM 6252-KRAMPITZ

4700 Test load of the stack pressure test in kg

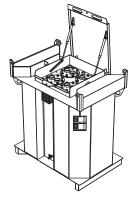

Maximum permissible weight in kg (see table on page 1)

Maximum permissible stacking load is mounted as a pictogram on the front side of the tank.

Transport and storage tank Nozzle schedule and equipment

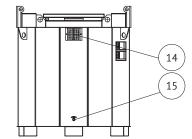

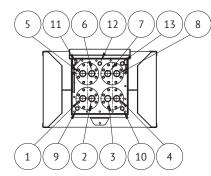

Equipment

- Durable, cubic, double wall body
- Bottom assembly optimized for easy loading with forklift and lift truck
- Hatch element, equipment on tank roof, c) weatherproof and vandalism-proof
- Sealing hood with gas pressure spring and handle strip d)
- Lashing eyes, 4x e)
- Crane eye and stacking corner, 4x f)
- Type plate and UN marking IBC plate g)

Nozzle schedule

Pos. Nominal diameter			Connection
	1	Sleeve G2"	Extraction, reduction, suction line 1"
	1	Siccve 02	with check valve incl. ball valve
	2	Sleeve G2"	Filling, filling pipe 2" incl. ball valve
	2	Sieeve 02	tanktruck filling pipe cap VK50
	3	Sleeve G2"	5 · · · ·
			Reserve, Blind plug
	4	Sleeve G2"	Level indicator, mechanical
	-	CI	Reduction, dip stick with sounding pipe cap
	5	Sleeve G2"	Reserve, Blind plug
	6	Sleeve G2"	Reserve, Blind plug
	7	Sleeve G2"	Overfill protection, reduction
			limiting level transmitter with type approval
	8	Sleeve G2"	Protection against dry running, stuffing gland
			with 1x cable gland
			level transmitter (float switch)
	9	Sleeve G1"	Reserve, Blind plug
	10	Sleeve G1"	Reserve, Blind plug
	11	Sleeve G1"	Safety assembly for pressure equalization
			Safety valve -0.05 bar / +0.34 bar
	12	Sleeve G1"	Ventilation
			Ball valve 1" with ventilation hood
	13	Sleeve G1"	Reserve, Blind plug
	14	Sleeve G1/2"	Instrument nozzle leakage detector
			Static vacuum leakage indicator with type approval
			Protective plate
	15	Sleeve G3/8"	Suction nozzle for creating vacuum
			Ball valve 3/8" with blind plug
