KTD-FA-7-A

* corresponds to KTD-FE in approval Z-38.12-312 Appendix 3 page 1/3

The KTD-F is a double-walled storage tank made of heavy-duty steel and is used to store water-polluting media such as diesel, heating oil and gasoline. It is equipped with an approved vacuum leak detection system. The installation takes place on a flat, load-bearing surface. The KTD-F can be easily transported using a forklift or crane. The KTD-F comes with an extensive

Rich basic equipment is supplied, which enables immediate use. Optional options include stainless steel versions, electric heating and a heating register for using process heat. The KTD-F is manufactured from S235 JR steel in accordance with general building authority approval Z-38.12-312 **and must be equipped with a vacuum leak detector.**

Advantages of this system

- are:
- high static strength and double-walled construction
 - Redesigned floor assembly for fixing the foundation using adhesive anchors
 - Optimum space-content ratio thanks to cubic design
 - Seal the tank openings with a hood to protect against moisture and vandalism

Please note: Transport only when empty and cleaned!

Standard equipment:

- 1.) Floor assembly with continuous longitudinal beams and integrated forklift pockets
- 2.) Robust, cubic, double-walled body made of S235 JR steel
- 3.) Promotion ladder from 10,000 liters. (Climb rungs mounted in one of the outer stiffening niches) including 2 grab handles on the tank roof
- 4.) 4 heavy-duty crane eyes for lifting when empty (up to 5,000 liters two lifting eyes)
- 5.) Hood element, consisting of:
 - Frame including lid
 - 2 pipe bushings 300 x 100 mm with blind plate (incl. screws, washers, nuts)
 - Gas pressure damper, padlock
- 6.) Roof assembly consisting of:
 - Dome entry DN 600 with dome cover
 - including washers, nuts
 - Foam rubber square profile 8 x 12 mm, self-adhesive
- 7.) Entry steps in the tank for inspection
- 8.) Nameplate
- 9.) Burst protection 115
- 10.) 5 connection flanges for flange adapter DN 160 (AØ 240)
 - 5 flange adapters with 2 2" sleeves each

Corrosion protection:

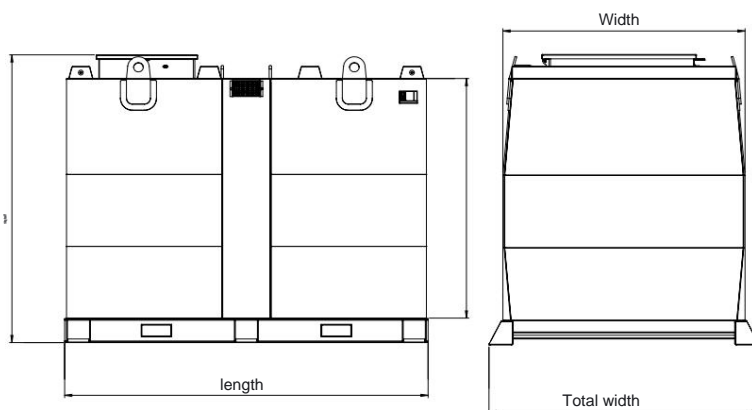

- Inside: raw, oiled
- Exterior: LA-3 coating, RAL 7032

Accessories optional:

- Additional level sensors
- Overfill protection with horn and flashing light
- Filters, pumps, electric tank heater
- System control with additional functions
- Equipment for media flash point < 55°C
- Equipment for special media

Special equipment:

- Painting in all RAL colors
- Interior coatings

- 1.) Hood element
- 2.) Flange DN 160
- 3.) Sleeve 2"
- 4.) Multifix point
- 5.) Inspection opening
- 6.) Burst protection
- 7.) Vacuum leak detector (Electronic or static)
